

B4063 CYCLE IMPROVEMENT SCHEME

HELLO WE'RE KNIGHTS BROWN

At Knights Brown we believe our people should enjoy fulfilling careers, our customers should have high quality projects, communities should be improved by our work and involvement, and the environment and nature should benefit from our behaviour. In this way, we seek to realise ambitions for all.

We take care to make sure all our people have the right skills, knowledge, character, culture and work space to be able to perform to their best, enabling us to collectively deliver projects that our customers and we can be proud of.

We're an independent, multidisciplinary, construction company. In addition to our office in Wales, which is responsible for the delivery of this contract, we also have a divisional office in Hampshire and another in Rochester, Kent.

We're looking forward to getting to know the local community and becoming part of it while we're here. We know our presence will have an impact on local people. We would encourage you to speak to us, just say hello, or tell us about your concerns so we can resolve particular issues at the earliest opportunity.

PROJECT INFORMATION

Knights Brown has been awarded the contract by Gloucestershire County Council to begin work on a section of the B4063 cycle improvement scheme. We will be responsible for constructing the section between Elmbridge Court Roundabout and the M5 Overbridge Staverton. This section consists of a two-way cycle track on the northern side of the B4063 carriageway made up of:

- A segregated cycle track and footway in locations with a higher density of pedestrians (through Churchdown).
- A 'shared use path' for both cyclists and pedestrians in rural sections with fewer pedestrian movements. (i.e. a cycle track people can walk on, not a footway people can cycle on).

Roundabout.

These works will see further progress in the delivery of the B4063 Gloucester to Cheltenham cycle improvements scheme, creating a high quality and safe route between the centre of Gloucester and the centre of Cheltenham and linking to the recently completed West Cheltenham Walking and Cycling Improvement works at Arle Court Roundabout and along the A40 and works underway between the M5 Overbridge Staverton and Arle Court.

AIMS OF THE PROJECT

The B4063 Cycleway will run between Gloucester and Cheltenham. A continuous cycleway along this route will:

- Help cyclists of all ages and abilities to travel safely.
- Improve health and wellbeing in the community while reducing Gloucestershire's carbon emissions.
- Give a continuous route for cyclists and make cycling and sustainable travel more appealing; helping to get people out of their cars, cutting congestion in the area.
- Improve bus times - if there's less traffic around, buses are more likely to be on time.
- Connect other cycle routes together, like London Road in Gloucester and the A40 in Cheltenham.
- Help people to reboot their commute by linking residents, schools and businesses in Churchdown, Innsworth and Staverton to public transport hubs in both Gloucester and Cheltenham.
- Assist the local recovery from the COVID-19 pandemic.

Further information on the scheme can be found by visiting <http://www.gloucestershire.gov.uk/B4063>

MEET THE TEAM

We're delighted to introduce you to our project team:

Contracts Manager: Richard Knight

Project Manager: Piotr Kostrzewski

Engineer:

General Foreman: Dennis Holbrook

Community Liaison Manager: Cath Waller

To get in touch please call Cath Waller on 07818 432183 or our project email address.

Email: B4063@knightsbrown.co.uk

PROJECT DRAWINGS

KEEPING IN TOUCH

We'll be preparing a regular newsletter to report on progress made, upcoming works and to highlight any events or operations we think people will wish to know about in advance. To receive an electronic copy please subscribe to the mailing list using the link: <http://www.gloucestershire.gov.uk/B4063>

SITE WORKING HOURS

Our normal working hours are Monday to Friday between 7am – 5pm. We are always careful to limit any noise from machinery and equipment prior to 8am and after 5pm. As an exception we may introduce weekend working where there is a need to make up any lost time but generally we aim to preserve rest days for the well-being of our team.

Occasionally particular tasks may require long or unusual working hours. Where this is the case we will give notice of what to expect.

KNIGHTS BROWN

Gloucestershire
COUNTY COUNCIL

IN THE EVENT OF A COMPLAINT

If a situation arises where you are unhappy with our management of the scheme, please contact us in the first instance so that we can work with you to resolve the problem. Please telephone Cath Waller on 07818 432183 or email B4063@knightsbrown.co.uk.
